GENTLEMAN GIVENCHY

A NEW GENTLE MAN...

The House draws inspiration from the original 1970s fragrance to propose a new creation, entirely reinvented for the modern-day gentleman.

But what does it mean to be a 21st century gentleman?

Strong and sensitive in equal measure, the gentleman as seen by Givenchy is a free, audacious spirit who doesn't conform to clichés. A hedonist who never deprives himself – or those around him – of pleasure, and always acts with generosity.

Gentleman Givenchy, a new vision of elegance.

WOODY Floral Fougère

Givenchy decided to play between tradition and modernity and revisited the gentleman's codes to create a signature, a symbol of a new generation.

Aromatic heart notes contrasted by an unexpected floral twist: the classical character of Lavender is disrupted by the nobility of Iris.

The distinguished warmth of Patchouli essence is significantly increased by the strength of Leather.

This adds a new masculine sensuality and an elegant and distinctive scent trail.

The spicy modernity of Pepper and the aromatic power of Lavender, an immediate contrast of cool and warm, freshness and intensity, from the very first notes.

The floral powdery notes of Iris make it the very epitome of sophistication.

These floral middle notes are warmed up by the leathery richness of Tolu Balsam.

The addictiveness of the oriental woody trail is pushed to the extreme: the warm temperament of Patchouli, and Black Vanilla, overdosed to create a concentrate of sensuality.
