HAUTE PARFUMERIE FRANÇAISE

THE CREATOR

For more than 20 years, Hervé GAMBS, artistic director and fabric floral design initiator, imagines sensory experiences for unconventional luxury seekers. Free-thinker designer, his approach is meticulous and instinctive. He tries various olfactive expression ways and succeeds in giving a new refreshing meaning to the French traditional Haute Perfumery. He freely dares intimacy and sensuality in fragrances as a mirror of his passion for authenticity. This contrast between raw and extreme sophistication soon became his trademark.

“

I am quite convinced that the essence of Beauty is hidden inside

the heart of Nature . ”
